2015 TAHOE WIDE-BODY CONSOLES

Wide-Body Console is a great-looking fit between the seats!

TROY's Tahoe wide-body consoles are 13.25" wide (OD). This width includes our standard face plate mounting area (on driver side) plus an open storage area (on passenger side). The open area is an ideal place for binders, clipboards, file folders.

Front side panels under dashboard are custom-designed to perfectly seal the gaps below the dashboard to create a clean, closed environment to hide wires, speakers, etc. Speaker grill holes are pre-punched.

The front sloped area butts cleanly against dashboard. OEM USB/DC outlets can be relocated to TROY console.

The sloped section holds 7" of face plates. The balance of face plates mount to the level area along with any required accessories such as internal beverage holders, sunglass tray, storage compartment, etc.

Choose from the following sizes:

- CC-F-TH0S-16
- CC-F-TH0S-20
- CC-F-TH0S-25
- CC-F-TH0S-30

For installation, use Tahoe floor plate AC-TH15-WB.

NOTE: For Tahoes ordered with seat-delete option, you will need to tap bolt holes to mount the floor plate. (M10-1.5 Thread)

Computer Mounts

Compatible computer mounts for this Tahoe console are:

- Side sliding mount (bolts to side of console)
- Passenger seat mount (bolts to seat bolts)
