SuperVisor U

- Universal version of Code 3's front windshield interior light - One size fits all (or almost all) vehicles
- Available in both 2-part full windshield and passenger-side only versions
- No drilling required for mounting
- "Low to no" flashback into the driver's eyes - adjustable side shield light-blocking plates block out flashback light
- Latest LED technology - bright, efficient LEDs: Independent flashing Torus light heads go from stealth to a wealth of light in an instant
- Can be wired to external flasher to flash takedown lights only
- Metal construction
- Draws less than 6 amps on average
- 12 VDC operation
- Reverse Polarity Protected
- 5-Year Warranty on LEDs

Benefits for Full Windshield Version

- The (2) takedown lights can be angled to a user desired position
- Cutting-edge design allows the SuperVisor U to be maneuvered from one vehicle to another in a matter of minutes!

Benefits for Passenger Only Version (SV888U & SV888U-1W)

- Takedown light and up to (2) Warning lights can be adjusted/aimed - No other internal lightbar has this capability!
- Intersection light gives coverage to the driver side
- If your vehicles change, you can still use the Passenger Side SuperVisor U simply by transferring it to another vehicle.

Full Windshield: Includes (4) outer mounting bracket sets, (1) inner mounting bracket set, and a set of (4) slotted mounting brackets along with threaded fasteners, and (2) types of bracket washers to fill gaps if necessary

Passenger Side Only: Includes (4) outer mounting brackets, (1) inner mounting bracket, and a set of (2) slotted mounting brackets along with threaded fasteners, and (2) types of bracket washers to fill gaps when necessary

2012 Dodge Ram Pickup (requires some installer modifications)
2008 Toyota Prius (requires drilling holes and other installer modifications)
2012 Chevy full size van
2012 Ford full size van
2012 Dodge Caravan
2012 Nissan Quest
2012 Ford F250

RX2700 CC MC Lightbar

Looking for a LED lightbar with MultiColor (MC) Capability? Check out the RX2700CC MC from Code 3. With two full color signals in one lighthead, you won't be compromising signal strength. For the front of the bar, you can have red/blue modules that turn into white takedowns. For the rear of the bar you can have red/blue modules that change to amber giving you an amber Narrowstik. With a variety of options, advanced standard features and a 5 year warranty on both the LED modules as well as the Central Controller, this a quality lightbar that will get you seen!

- PriZm II LED lighthead
- 900 (default) or 950 Flash Pattern Software
- 900 Series Software: Ability to change all lighthead flash patterns to one of the standard flash patterns (one of 24 flash patterns)
- 950 Series Software: Ability to change flash patterns in any pair of lighthead (usually symmetrical). Each pair can be programmed with one of the standard flash patterns
- One Touch Setting/Changing of Flash Patterns
- Flasher/Steady Burn Feature for Takedown and Alley Lights
- LED Dimming Feature
- Corner Cruise Lights
- Built-In NarrowStik Function
- LED or 55W Halogen Takedown Lights
- LED or 35W MR-11 Alley Lights
- Small Gauge Multi-conductor Cable Provides Easy Installation
- Easy to Install LIT3 Mounting Platform
- 5-year Warranty on the LED Modules and the Central Controller
- Meets all Applicable SAE, NFPA and California Title 13 Specifications when properly configured

Model: PSR2700

2100 and 2700 Lens Refresh Kit

Problems with cloudy, weather worn lenses? We have the solution for you with Code 3's Lens Refresh Kits. Each Refresh Kit includes new upper lenses, new lower lenses, new lens seals and new lens clips. For 48" 2100 and 2700 lightbars. Also available for 52" & 58" bars - call for pricing.

2100 Model: PS2100REFRESH \$211

2700 Model: PS2700REFURB \$254

Z3 Siren, PA, Switching System

This is our most popular full featured siren. The Z3 is designed to make your job safer, easier and less stressful! Even better... it's also affordable!

The Z3 takes a new approach to the siren/PA/switching system approach. It has 3 distinct control areas and is fully controllable and cloneable. If you are looking for a simple interface, easy to use, intuitive siren this is it. Visit our website or contact us for complete details and specifications about this exciting siren.

- Meets SAEJ1849, California Title 13, and 2004/104/EC when properly configured
- 5-Year Warranty
- Designed and Manufactured in St. Louis, Missouri USA

Model: PSZ3

SWIF

Key Benefits:

- The Ford PI. Steering Wheel Remappable Switches are transformed into a Z3 Control Head allowing you to easily program each one of the (4) numbered switches, providing any lighting or siren functions that you need.
- Provides a true "Hands-Free" Capability for Lighting and Siren Functions on your Ford PI Sedan or Utility.
- Easily program multiple SWIFs through the Z3 control head for multiple vehicle installations in a matter of seconds!
- Small and compact in size – The SWIF can be installed virtually anywhere in the vehicle.
- The SWIF Module also comes with (2) additional inputs that can be used for other remote switching capabilities.

Specifications

- Designed for use only with the Z3 siren and the optional control buttons on the Ford PI Sedan (Option 47K) or Utility (Option 61S) Steering Wheel
- 4.25" L (with mounting plate) x 2" W x 0.75" D

Model: PSZ3-SWIF
