

## REMOTE LIGHTED SIREN

All the best features of Code 3 sirens in a small, efficient control head

3998R

The RLS series is Code 3's top-of-the-line remote amplifier siren. It is perfect for situations where there is limited room for the control head. The control head weighs less than 8 oz. and is very compact! Mount the control head out front and the amplifier in the trunk. The RLS, Remote Lighted Siren, is a serial controller that gives you access to all functions of your siren, PA and lightbar switching functions.

Amplifier: 7.5" L x 7.5" W x 3.25" H  
Control Head: 7" L x 3.5" H x 1.5" D
