

# CODE 3<sup>®</sup>

## Interior Windshield LED Light

### SuperVisor<sup>®</sup> Flex

#### Benefits

- Designed to fit all Police Pursuit Vehicles and Special Service Vehicles, plus many others!
- Quick Disconnect allows users to install driver and passenger side separately, then connect together when complete, making installation very efficient!
- Minimizes light flashback with expertly designed gaskets. The adjustable side light-blocking shields have been designed specifically to block out flashback light.
- No drilling required for mounting and looks like a part of the vehicle at 1.34" tall

#### Design Features

- Contoured for installation against the upper interior of the windshield between the sun visors and glass
- Available in the latest technology of Torus<sup>™</sup> MultiColor & Single Color LEDs
- Torus Independent flashing Single LEDs available in Red, Blue, Amber, and White
- Full size MultiColor has (6) 18-LED Lighthoods in Red/White, Blue/White, Amber/White and Red/Blue,
- Full size Single Color comes with these 4 configurations:
  - (6) 9-up Torus lighthoods
  - (4) 9-ups and up to (4) Takedowns
  - (4) 9-ups and up to (4) 3-up Torus IF (Independent Flashing) Lighthoods
  - (4) 9-ups and (2) Takedowns & (2) 3-up Torus IFs (Independent Flashing) Lighthoods
- The 3 LED Torus Lighthoods are designed for forward direction of light. The 9 LED Single Color and 18 LED MultiColor Torus Light Heads are designed to spread light so they do not require aiming!
- Includes (6) different Outer Mounting Bracket Versions and two each of (3) Different Inner Mounting Bracket Versions.
- Two models are available for each design—full windshield and passenger only.
- Takedowns on the full size single color version has several options: (1) or (2) takedowns on each side, or (1) or (2) 3-up LED lights, single on each side

- Cable length between the driver and passenger side is 18"
- 19 Flash Patterns Available for Single Color Version
- 32 Flash Sequences and 12 Flash Patterns are Available for MultiColor Version
- MultiColor Flash Sequences/Patterns are controlled by the Central Controller Box
- Ability to wire to external flasher to flash Takedown lights only (single color only).
- Draws less than 6 amps on average

#### Specifications

- Individual Passenger and Driver Modules are 19.87" W and can be extended to 55.5" W (more compact than previous models)
- Weight 7.5 lbs
- 12 VDC operation
