## FORD UTILITY VEHICLE ELECTRONICS TRAY

**EASY ACCESS TO SPARE TIRE. GET FULL USE OF UV CARGO AREA.**

Tray bolts directly to TROY new UV cargo mount.

No drilling required. Cargo mount is pre-punched with bolt holes.

Tray mounting brackets designed to allow for tray to be tipped down for ease of access.

The tray offers 6" of equipment mounting clearance.

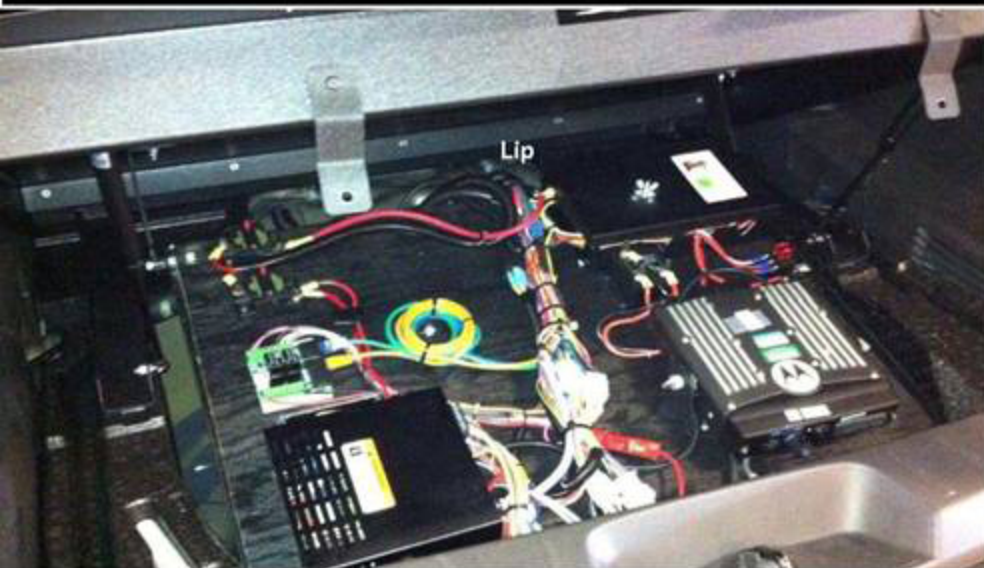

Tray designed to fit in spare tire well (above tire).

Tray dimensions are 28" wide x 22.5" long. Plywood is sold separately.

Photo (left) shows electronics tray unbolted and fully accessible for servicing.

Trays are available for sale now!

**AC-UV-TRAY-H bolts to TROY tip-up cargo mount in Ford Interceptor Utility Vehicle.**

The tray now has new features to make it easier to handle. Two (2) knobs have been added that are easy to turn to loosen and lower tray for access. A handle bolted to the tray makes it more comfortable to lift and hold when you bolt it back into place. (Not pictured.)

The tray can be made from steel (standard) or aluminum (custom order) and is powder coated in a black wrinkle finish.
